Nathan's Treatment Scale - Acceptance (NTS-A) v.1.1

For patients *to tell clinicians how willing they are to try a treatment*

5	I definitely want this treatment.
4	I will try this treatment, but I have concerns.
3	I haven't decided if I want this treatment.
2	I want to try another option first.
1	I cannot agree to this treatment.

Patients: Suggest these scales to your clinician to make treatment discussions easier and more efficient.
